1 Purpose and scope

This document describes the improvements and changes of ADD V5.2.R0 compared to V5.1.R3

2 What's new in Version V5.2.R0?

2.1 Highlights

2.1.1 SQL Server Support

The ADD version V5.2.R0 is the first ADD version which supports SQL Server 2008 databases for data storage.

2.2 New Features, Major Improvements

- None -

2.3 Minor Improvements / Correction of Bugs

2.3.1 About Dialog – License Details

A new button “License Details” in the About dialog shows the currently active ADD users connected to the ADD database. This information helps to check if the amount of current licenses is sufficient for the users working with ADD.

4 No longer supported features

4.1 Individual Axes

The simple individual axis flag in the Offline Mode is no longer supported (superseded by STD and FIX axis objects).

5 Questions?
